Rubber Fab Technologies Group's

GAUGE PROTECTION SYSTEM

Assures Protection of Instrumentation with No Product Loss

Available Materials Include:

- Platinum Silicone
- PTFE ***NEW!***
- Tuf-Steel ***NEW!***
- FKM
- EPDM

RUBBER FAB
technologies group

The Rubber Fab Gauge Guard Isolator seals **protect expensive stainless steel diaphragms and instruments from damage without affecting instrument performance**. By combining a quality Rubber Fab hygienic seal with a membrane, the Gauge Guard Isolator hygienic seal **isolates corrosive solutions from the stainless steel diaphragm**. A necessary and **cost effective** step in **assuring long life and accurate results from your gauges**.

As some manufacturers will suggest the use of a gauge guard seal, others note that the **failure to use a gauge guard seal can void most instrument and gauge warranties**.

All the Rubber Fab Benefits in a Gauge Guard Hygienic Seal

- Seal membrane **protects stainless steel diaphragm from corrosive solutions**
- **Will not interfere with gauge operation or accuracy**
- Works with most industry standard instruments
- Helps **extend the life** of gauges
- Available in:
  Platinum Silicone
  PTFE
  Tuf-Steel®
  EPDM
  FKM Fluoroelastomer
- 1/2" and 3/4" – .015 membrane thickness
- 1", 1-1/2" and 2" – .010 membrane thickness

All Rubber Fab Hygienic Seals Meet the Stringent Standards For Purity

- U.S. Pharmacopeia Class VI Certification
- Cytotoxicity Criteria
- Title 21 CFR 177.2600
- USDA and 3-A Sanitary Standards
- Current Good Manufacturing Practices (CGMP)
- ASME-BPE Standards
- Animal Derived Ingredient Free
